

COLLEGE OF EDUCATION AT ILLINOIS

**Thursday, February 8th
2:30 - 4:30pm, Room 192, EDUC**

Dr. Cheng Sun

Director, Institute of Vocational and Continuing Education
National Institute of Education Sciences, PR China

“The Policy Analysis and Status Quo of Developing Modern Occupational Education Systems in China”

Dr. Cheng Sun's lecture will introduce the “Planning of Developing Modern Occupational Education System” which was published in 2014 by the Chinese government. This plan's ultimate goals include lifelong learning, developing a world-class modern occupational education system with Chinese characteristics, and building the “interchange” of human capital development.

Dr. Yanwei Ma

Deputy Director, Institute of Vocational & Continuing Education
National Institute of Education Sciences, PR China

“The Current and Prospective Development of Secondary Occupational Education Systems in China”

Dr. Yanwei Ma's lecture will introduce several situations relating to Chinese secondary education, such as scales of development, conditions of school operations, regional differences, and so forth. This lecture also covers the developing direction and trend of secondary occupational education in the future.
