

# Experiment:

## *Spanish English Health Scenarios*

(IRB Protocol 25-1209)

You will be asked to read sentences in Spanish and English in a survey on Qualtrics. The experiment will take no more than 60 minutes to complete. All participants who wish to be entered into a drawing for one of two (2) \$50 gift cards will be entered into the drawing. Experiment conducted by Dr. Kiel Christianson, Department of Educational Psychology, and Esther Nam, Department of Psychology.

### QUALIFICATIONS FOR PARTICIPATION:

- Open to participants whose native language is Spanish and is also proficient in English.
- Open to participants with normal or corrected-to-normal vision (glasses/contacts are OK).

### LOCATION:

- Online, Qualtrics (link will be provided upon consent)
