

EdD Cognate Requirement

All courses used to meet the EdD cognate requirement must be taken outside of the student’s concentration or field of specialization. Courses taken outside the department or college are allowed. The required sixteen hours may be taken in one field or eight hours may be taken in each of two related fields. At least eight of the sixteen hours must be taken at the 500 level. If two fields are selected, at least four hours in each field must be at the 500 level.
