Stopping Out

Undergraduate students who elect to stop out for only one semester (fall or spring) and are in good standing will be able to register without special approval once currently registered students have had a chance to register. Students who have stopped out for more than one semester (fall or spring) must either complete a Statement of Intent to Return or Petition for Re-entry. Please see http://education.illinois.edu/docs/default-source/saao-documents/re-entry.pdf for more information.

Name ___________________________ Phone Number ___________________________

Term petition applies to: ___________________________ Expected Semester to Return: ___________________________

Current program (circle):
Early Childhood    Elementary    Learning & Education Studies    Middle Grades    Special Education

Explanation (required for all requests; please be thorough) Attach the response if additional space is needed.

The Illinois State Board of Education (ISBE) requirements are subject to change at any time. I understand that when I decide to return, I may be required to satisfy new requirements in order to obtain the University’s recommendation for licensure. I also understand that stopping out (due to the sequence of professional educational courses) may prolong time to degree. I understand that official transcripts must be sent to the College of Education from all institutions attended since last enrollment.
